**Urgent Care at University Health Services, Tang Center**

uhs.berkeley.edu/medical/urgent-care  
Tang is available for general medical care for all Berkeley students, seven days a week, regardless of insurance status. Students may be treated for injury, prevention of sexually transmitted infections and pregnancy, with specialty care (e.g. forensic medical exams) coordinated with community providers. University Health Services offers students after-hours emergency consultation with a counselor and crisis resource referrals by calling 855-817-5667.

**EVIDENCE COLLECTION**
If a survivor thinks that they may want to pursue criminal charges immediately or in the future, a forensic exam conducted soon after an assault may yield valuable evidence. If a survivor is interested in having a forensic exam:
- It’s best not to shower, bathe, wash hands, eat, drink or brush teeth.
- If possible, place each item of clothing in a separate paper bag (no plastic).
- Leave the area where the assault occurred undisturbed. Survivor can call 911 for a police response and accompaniment to medical care. Evidence collection is done in the county where the assault occurred, usually within the first 72 hours following an assault (the earlier, the better).

**OBTAINING A PROTECTIVE/RESTRAINING ORDER**
A survivor may also choose to obtain a protective/restraining order. Protective orders are civil court orders to protect survivors who have experienced or are reasonably in fear of physical violence, sexual assault, or stalking by another individual. The Gender Equity Resource Center (510) 643-5727 or the Family Violence Law Center (510) 208-0220 can offer assistance with this process.

The University of California policies prohibit sexual harassment, including sexual assault. We are committed to providing an environment free from discrimination and harassment on the basis of categories including race, color, national origin, gender, age, sexual orientation/identity.
